AMENDMENT UNDER ARTICLE 34 BEFORE THE
PRELIMINARY EXAMINING AUTHORITY

European Patent Office
D-80298 Munchen 2
GERMANY

Dear Sir:

Prior to Examination, Applicant requests the following remarks be considered with respect to the above-identified patent application.

Remarks Regarding Search Report

Applicants have reviewed the reference cited in the Search Report that was indicated as being a type X reference, as well as the reference indicated as being a type Y reference. It is noted that Japanese Patent Document 01171615 (identified as being a type X reference) does not illustrate the claimed "fold arrangement" including "at least four folds", as recited in claim 1. An example embodiment of the claimed fold arrangement is shown in FIG. 15. The Japanese Patent Document illustrates a dimple in FIG. 3, but not the claimed fold arrangement having at least four folds. Japanese Patent Document 04300612 illustrates corrugated media, but not the claimed fold arrangement.

Claim 10 recites a process of manufacturing filter media including deforming a portion of a corrugation to define at least one foldable tip, and then folding the at least one foldable tip over to fold the corrugation closed. Neither one of the Japanese Patent Documents illustrates this process. Japanese Patent Document 01171615 shows a dimple in FIG. 3, but does not show defining a foldable tip and then folding the foldable tip over to fold the corrugation closed. Japanese Patent Document 04300612 merely illustrates corrugated filter media.
